SUPER HIGH TECH GAME

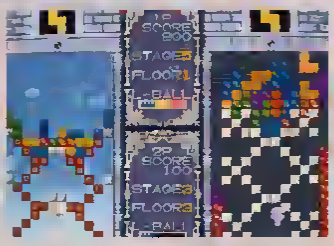
NEO·GEO

Conquer the tower of blocks thru quick reflexes and courage.

Rad and Am must rise to the top of the tower by magically controlling and removing the falling blocks to their advantage. Think and act quickly in this new and challenging puzzle game.

Float to the top in the balloon or airship!

Rad and Am were chosen by their separate villages to meet with the god of the sun to ask for sunlight. 2 player challenge! With second player drop-in at anytime!

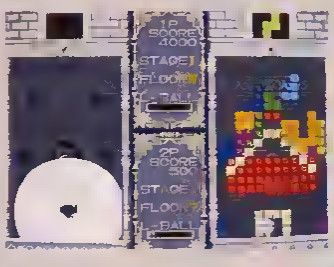


Be quick to move the blocks to fill an open space.

Form a solid line of blocks to magically destroy the obstruction to proceed to the top of the tower

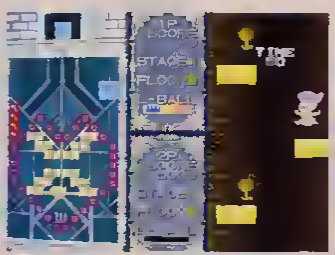
Still a long way to go!

After clearing a stage you'll collect a key that will advance you to an even more challenging level



Almost clear, but loosing control, quick! Use your magic!

It's called the lightning ball and it will destroy the blocks surrounding your airship Save this power and use it wisely!



Bonus Stage!

Quickly move the blocks falling toward you in these tough bonus rounds If you succeed... you will be rewarded

Ten floors at every level! Six challenging stages!

Watch for floating mines! High voltage wires and other traps that will hinder your progress Special golden blocks are more difficult to destroy so be on your toes and don't give up The villages of Rad and Am need the precious sunlight that you are seeking
